Cold Chain Monitoring Solution

Complete and Cost-effective

With LIBERO C and liberoMANAGER, ELPRO offers the most complete and cost-effective Cold Chain Monitoring Solution ever. From production to distribution to the final site, the LIBERO C portfolio and liberoMANAGER are applicable for any step in the cold chain. The LIBERO C portfolio now includes a Multi-Level PDF Indicator. No software to send, no software to receive, no software for reporting and no software for data warehousing – we call it the most complete no-software solution. Designed for pharmaceutical companies with complex distribution chains for commercial products and clinical trials. All components are fully qualified according to GAMP 5 and compliant to FDA 21 CFR Part 11.

100% IATA compliant

| Multi-Level PDF Logger | PDF Logger | Multi-Level PDF Indicator | PDF Dry Ice Logger |

we prove it.

The most Complete and Cost-effective Cold Chain Monitoring Solution

1. Safe and simple configuration
- Make product-, study- or site specific configuration
